

Tax-Exempt Financing

For City, County and State Government Entities

Marlin makes financing an attractive option for government entities with tight budget constraints.

Debt:

Tax exempt financing obligations are NOT considered debt, but a current expense and does not impact the municipalities available debt limitations.

100% Financing:

Public entities are able to include soft-costs such as delivery and installation.

Quick and Simple:

Credit decisions are issued within 4 hours and documentation is supplied either the same day or the next business day.

Budget Saver:

Financing allows public entities to acquire the equipment they need now rather than waiting until the next fiscal year.

Matching Terms:

Agreements may be designed to match the term for the expected useful life of the asset.

Flexibility:

Payments can be made upon installation or in some instances delayed until the next fiscal year.

Acquire Your Asset Without Acquiring Debt:

Payments are subject to annual appropriations, which means the obligation is not subject to statutory debt limitations. Since no debt is created, the finance agreements do not require voter approval.

About Marlin

Marlin Business Services Corp. (NASDAQ: MRLN), through its wholly owned subsidiary, Marlin Business Bank, is a nationwide provider of capital solutions to small businesses. With over 20 years of experience and an emphasis on partner relationships, we have structured our funding solutions with a level of flexibility and ease to meet the needs of a wide variety of industries. So while we offer lending products directly to small business owners, we also offer financing programs to equipment manufacturers, distributors, dealers and others.
