

# The better lender for your business

## Marlin financing versus SBA lending

Why wait weeks or even months to get approved for an SBA loan? The SBA loan process is long and hampered with paperwork.

Marlin's process is different. It's built for the needs of small businesses. We know that you don't have the time to manage piles of paperwork or to wait on approvals. That's why we get back to you quickly, so you can keep going and growing.
