

# TAX EXEMPT FINANCING

## for City, County and State Government Entities

PEAC makes financing an attractive option for government entities with tight budget constraints.

**DEBT:** Tax exempt financing obligations are NOT considered debt, but a current expense and does not impact the municipalities available debt limitations.

**100% FINANCING:** Public entities are able to include soft-costs such as delivery and installation.

**QUICK AND SIMPLE:** Credit decisions are issued within 4 hours and documentation is supplied either the same day or the next business day.

**BUDGET SAVER:** Financing allows public entities to acquire the equipment they need now rather than waiting until the next fiscal year.

**MATCHING TERMS:** Agreements may be designed to match the term for the expected useful life of the asset.

**FLEXIBILITY:** Payments can be made upon installation or in some instances delayed until the next fiscal year.

**ACQUIRE YOUR ASSET WITHOUT ACQUIRING DEBT:** Payments are subject to annual appropriations, which means the obligation is not subject to statutory debt limitations. Since no debt is created, the finance agreements do not require voter approval.
